Artwork and Packaging Design Specialist

5 months contract

As an Artwork and Packaging Design Specialist you will be defining, preparing, and modifying artwork as well as designing associated packaging. This position requires close collaboration with Regulatory Affairs and Manufacturing Sites to ensure compliance and efficiency.

Ihre Hauptaufgaben

- Coordinate the technical aspects of new product launches and regulatory variations, ensuring all artwork and packaging elements meet the required standards
- Manage the consolidation planning for product launches and regulatory changes
- Define technical specifications for artwork and packaging components
- Gather and consolidate necessary information for product launches or regulatory changes
- Oversee the creation and modification of artwork and the development of packaging
- Work in partnership with Manufacturing Sites and Regulatory Affairs to support and facilitate their needs
- Ensure the deployment of approved artwork to Manufacturing Sites and printer suppliers

Ihr Profil

- **Education:**
 - Advanced professional **certification in the Graphical Industry profession** (e.g., CFC)
 - ISO 15930 Standard certification
- **Experience: At least 5 years** in artwork and packaging design (pharmaceutical environment preferred)
- **Skills:**
 - Proficiency in Adobe Creative Suite and other relevant graphic design software
 - Strong understanding of cGMP and its application in pharmaceutical operations
 - Solid skills in artwork preparation and modification
 - In-depth knowledge of packaging design and development processes
 - Proficient in popular MS Office applications
 - Excellent organizational and communication skills
 - Ability to work well within a team
 - Fluency in English and French
